_____ I have a specific allergy to a genre of produce request and ask to avoid this, accepting my Farms substitute in advance: _____

I understand that this is a community supported venture and that, although our Klug Orchards Green Organic is committed to the best ability to provide high quality produce and flowers, there are risks in agriculture which are innate & understood by the whole community of member partners. I also understand that it is my personal responsibility to timely pick up my share at the farm or at one of the Market sites each week though out the 2017 growing season. *I am fully aware that it is necessary to inspect and wash all produce thoroughly before consuming. Kevin, his workers, his farm, all other CSA members and administrators, and the buildings we use to pick up our shares and their administrators and employees have no liability in terms of the safety of my food once off premises nor while Im visiting on the premises voluntarily in any situation and I hold them harmless in this partnership for shared ownership of my direct farm food connection.*
